

ASANTAE SHELTON

Software Engineer

SUMMARY

Creative, detail-oriented, software engineer with a deep interest in augmented reality and AI. Proven track record of creating and implementing successful front and back-end web applications. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at 100devs, Los Angeles, CA

October 2020 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full-stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Hip Coffee Co (Fullstack Web App) – Cashier can take coffee orders from customers with their names. Baristas can log in to the app and see orders that have been made, and mark them as complete. Orders that have been completed will note which barista completed the order.

Beetle Track (Fullstack Web App) – Users can log in to their profile and find their list of bugs and issues that they have tracked. They can add new issues and tags that are specific to a project/problem they are having.

Other Projects: St. Pete StarGazers Society APOD Web App with NASA API integration, On-demand background color changer for Partnered Twitch streamer, and many more

Full Stack Web Developer at Anodic | Remote

January 2019 — Present

Created full-stack web applications and static websites for the client across their business. Also, consulted on SEO and social media strategy.

Case Investigator at Guidant Global | Remote

September 2020 — March 2022

Addressed questions and problems related to COVID-19 from citizens. Worked special assignments in excel alongside a team while facing consistently changing responsibilities.

VOLUNTEERING

Pushing to Open-Source Repositories | Remote

January 2022 — Present

Regularly push new code to fix varying issues to open-source repositories and network/communicates with other devs via Github.
